Simplicity First

$> whoami _

I can take any idea to its full implementation and final release.
Very proactive person, always looking forward to improve the team and myself.
Quick, passionate learner who successfully collaborated remotely to create excellent products.
Lately, I've been getting into bug bounties, securing contracts and DeFi developments.

5 + Years of Experience   **25 +** Completed Projects

Services

Blockchain

I build awesome dApps and Contracts using Solidity, PyTeal and JavaScript on different chains.
DeFi for a decentralized future.

Tools

OpenZeppelin Contracts / Web3
Hardhat / Truffle / Ganache
Remix IDE / Ethers / Infura
Solc / Teal / Goal

Backend

I build and maintain servers and databases using TDD quickly and efficiently.

Frontend

I know how to make products super user friendly.
I am very aware of how vital UX is to a product's success.

Clean Code

Rushed jobs and unclean code always result in future bugs and missed deadlines.
I never rush a job. Clean code forever.

Teamworking

My main objective is to be part of a professional team, in which the achievements and successes of each one are recognized in an optimal and pleasant work environment.
